Legal Framework and Operationalization

Financial Autonomy Operational

The legal provisions for financial autonomy contained in the Delta State audit law enacted in June 2021 is being implemented in compliance with S. 4(4) which provides that “the Auditor-General of the State and Auditor-General of Local Governments shall not later than three (3) months before the close of each Financial Year submit a budget comprising proposed income, revenue and expenditure for their Offices for the following financial year to the House through the Committee which funds shall be charged to the Consolidated Revenue Fund of the State and disbursed in equal monthly installments”.

Furthermore, S. 11(1)(b) and (c) states that “The Auditor-General shall prepare and submit to the House at least Ninety (90) days before the beginning of each year the estimates of revenues and expenditure of his office for inclusion in the State Budget; the operational and administrative expenses of the Office including salaries, allowances, gratuities and pensions payable to Staff”.

Feedback received indicate significant improvement in implementing the legal provisions stated above. The Office of the Auditor-General is said to be able to draw recurrent and capital components of its budget for up to six months in a single request. In essence, the Audit Office receives its annual budgetary allocations in two installments.

Administrative Autonomy not Activated

The Audit Service Committee for Delta State has not been inaugurated since assenting to the audit law in June 2021. S.24(1) established the Committee while S.28 provides for its functions to include that “the Committee shall have power to review all actions taken by the Auditor-General on Human Resource matters including recruitment, remuneration, promotions and discipline or sanctions before final decisions are taken by the Auditor-General. Nothing in this Section shall be construed as contrary to the requirement in the constitution that the Auditor-General shall not be subject to the direction or control of any other authority or person”.

Response received showed that the Board has not been activated. The constitution of the Audit Committee is meant to be one of the positive impacts of the newly enacted audit law to strengthen the Office of the Auditor-General in Delta State administratively especially by ensuring that human resource issues are coordinated through the Audit Committee rather than through the Civil Service Commission.

To ensure administrative independence for the Office of the Auditor-General for Delta State, it is expected that the Audit Committee would have been inaugurated to limit reliance on the Civil Service Commission of the State for all human resource matters relating to recruitment, discipline, promotion, and remuneration for staff of the Office of the Auditor-General.

Also, S.3(8) states that “The post of the Auditor General where vacant shall be advertised and all qualified candidates shall be invited to go through a competitive interview conducted by the Civil Service Commission after which the names of three (3) most qualified candidates shall be shortlisted and sent to the Governor for appointment”.

Also, S.(2) (a) states that “the Auditor-General shall remain in Office until he has attained the retirement age of sixty (60) years or has spent thirty-five (35) years in service; whichever comes first, except where he is removed under the provisions of this Law while (b) indicates that “any Auditor-General who attains the age of 60 years or 35 years of service during the tenure of his Office shall retire immediately”.

Term of office for Auditor-General must be well defined, consistent, and predictable to guarantee their independence. This will further ensure that an Auditor-General, whether appointed from within the Civil Service or Private Sector, is not subjected to the direction or control of any person or authority on the account of tenure instability.
