Accountability Gaps	Recommendations
1 Ineffective implementation of the legal framework	The Executive, House of Assembly and the Office of the Auditor-General should implement the audit law effectively.
2 Lack of transparency	The Office of Accountant-General and other actors should ensure that citizens' accountability reports are published online and timeously.
3 Participation mechanism needs improvement	The Public Accounts Committee should improve on the involvement of civic and media actors in the audit process.
4 Insufficient oversight	The Public Accounts Committee should also discharge its Constitutional responsibilities on reports of the Auditor-General diligently.
5 Absence of performance audit report	There is a need to ensure performance audits are carried out to assess implementation of government's programs, projects and policies. Also, the performance audit report should be published.
